SMALL HOUSE TECHNIQUES. . . FEDERAL RESERVE COMPETITION. . . H.A.B.S. DETAILS. . . MAIN STREET

Striking store interior showing Masonite TEMPERED PRESWOOD on walls and display cases. Finish applied to TEMPERED PRESWOOD by Marsh Wall Tile Company, and sold under the names of Marsttile and Martile.

.... WHEN GOOD THINGS GET TOGETHER

TODAY there's more to selling than merely offering goods for sale. Attractive surroundings are essential to successful merchandising. Take food, for example. The most delicious meats, fruits and vegetables may go begging for customers in dingy, unappealing shops. • Merchants in every line of business are learning that miraculous improvements in their shops can be made with Genuine Masonite TEMPERED PRESWOOD and TEMPRTILE. These remarkable materials give all the cheery, spotless appearance of marble tile . . . at a great saving. • Masonite TEMPRTILE is made in sheets of the same material as the famous Masonite TEMPERED PRESWOOD. It is grainless, moisture and wear-resisting . . . will not warp, chip or crack. Its surface is grooved into four-inch squares. Natural warm-brown finish can be used without further treatment. Or it can be painted or enameled to produce a tile effect. If preferred, you can buy either TEMPERED PRESWOOD or TEMPRTILE with finish already applied, from manufacturers whose names we will supply on request. • One of the great advantages of TEMPRTILE is the economy of installation. It can be nailed or cemented in place by regular carpenter . . . cut to fit any size or shape space . . . decorated by regular painter. Easy to keep clean. Ideal wherever beautiful and lasting tile effects are desired. Write for free sample and literature. Address: Masonite Corporation, 111 W. Washington St., Chicago, Ill.

GENUINE MASONITE TEMPERED PRESWOOD

QUARTRBOARD • TEMPRTILE • STRUCTURAL INSULATION • CUSHIONED FLOORING
